**CITIZEN'S MILITARY TRAINING CAMP INFORMATION BLANK.**

The Elba High School baseball team added another game to their string of victories on last Friday afternoon when they beat the Co-education County High boys by a score of 7 to 6.

The game was quite interesting throughout, and the Enterprise lads had the score 6 to 4 in their favor for several innings, having gained the lead early in the game. Elba scored one in the eighth, and in the ninth registered two more when Enterprise boys got careless with the ball.

Lunsford did the pitching for the locals and with the exception of one or more innings had everything his way. Paschal, pitching for Enterprise, did some good work, but was relieved before the game was over.

Elba boys have won every game so far this season. At the time of going to press on Wednesday afternoon, the Oyster boys are here for a week which promises to be a very interesting one.

## or a COTTON PLANT

## Needs FOOD

At the end of a hard morning's work, your whole body needs to *ache* for food. It sure feels fine to put your feet under the table and enjoy your dinner.

Your noonday meal gives you the strength to keep going until nightfall.

Things are not much different with a cotton plant. You put fertilizer under it—and that's a kind of breakfast. It carries the plant along to chopping time.

Then is when every plant standing in your fields ought to be side-dressed with 150-200 pounds of Nitrate of Soda.

They will all repay you for that good "dinner" of plant food by chattering right up and making cotton for you to the end of the season.

Not what we say. But what clear-headed, practical cotton growers all around you do. They make dollars-and-cents profits feeding their cotton at chopping time with this one food that carries it on to a high yield maturity.

And Nitrate of Soda gives the same money-making results when side-dressed on corn.

Just cut out this advertisement and write your name and address in the margin. Then mail it to us. We will send you, without a penny of cost our little book "Side-Dressing Cotton and Corn." Our manager is a practical cotton grower and knows just what conditions call for here in "Hama," the Cotton State.
